COMFORT & STYLE BEFITTING ROYALTY

KING casual FURNITURE

Poly FURNITURE

Poly Furniture. There are solid reasons it's growing in popularity each year. First is its beauty, coming in a wide selection of colors from bright tropicals to more traditional wood hues. Second is its strength and durability, lasting for decades without rotting or cracking. Third, it's so easy to care for. Just use mild soap and water, rinse it down, and you'll see that the gorgeous color remains nearly undiminished season after season. One more reason to buy poly? It helps keep our environment clean by using milk jugs that would otherwise end up in landfills.

Poly Lumber has a lot of advantages over wood. It won't rot, splinter or crack, and it's impervious to insect damage. And since the color goes all the way through, you won't see tiny nicks or scratches that need touching up.

Poly is versatile. From chairs to dining tables, from swings to settees, you can completely equip your outdoor space with a full complement of poly furniture and accessories.

If you appreciate **Poly's Advantages**, sit down with your favorite beverage, prop your feet up, and start planning the patio or deck of your dreams right now.

The *Royal Life* starts with King Casual Furniture.

Imagine Gracious Living right outside your back door — comfort and style befitting royalty. With King Casual Furniture's vast collection of styles and colors you can do more than just dream. Browse through this brochure to see all the elegant furniture designs in both poly and wood. Plus, choose accents to complete your outdoor living space.

Begin the royal life today.

Care & Maintenance OF POLY FURNITURE

King Casual Furniture manufactures casual outdoor furniture from recycled plastic lumber (RPL) because it's a durable, environmentally-friendly alternative to traditional lumber. The material we use is made from an extremely high performance polymer that doesn't require sealing, painting or staining. It will not rot or splinter, and contains UV inhibitors that resist fading. It contains no filler, such as wood fiber, that would cause moisture absorption and promote bacterial growth. The recycled material used in our plastic lumber is a combination of consumer waste and industrial by-products which would normally be disposed of in landfills.

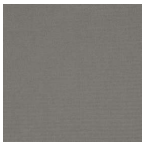

To care for **King Casual Furniture**, simply clean it regularly with soap and water (avoid pressure washing). The stainless steel fasteners used to assemble your furniture are practically maintenance free under normal conditions. (We use only the highest quality stainless fasteners; however, in coastal areas, the high salinity environment may cause corrosion, and eventually fasteners will rust if not washed and rinsed with fresh water on a regular basis.) Avoid using harsh chemicals to clean your furniture.

Construction
DETAILS

We employ innovative construction techniques to give you a superior design and quality build. Where possible, instead of screws and bolts that are visible and make unsightly holes and marks, we use cam inserts and hidden bolts. We also use mortise and tenon joining to make a sturdy, reliable construction. All of our parts are CNC machined to give a perfect cut and fit on each piece. You will see why our design and construction is fit for a king.

King Casual Furniture
WARRANTY

King Casual Furniture offers a limited warranty (for normal use) against the structural failure of our recycled plastic lumber furniture for up to 20 years for residential use, and up to 5 years for commercial use (warranty is from the date of purchase). We further warrant our furniture to be free from manufacturer defects in material and workmanship for up to 1 year for the date of purchase. **King Casual Furniture** will, at its discretion, repair or replace defective furniture with the same or similar product (if discontinued) at no charge. No cash refunds will be made. Shipping and handling are not covered by this warranty. Although extremely durable to the elements, our recycled lumber (RPL) furniture may fade when exposed to direct sunlight and some elements may cause staining of the furniture surface. Fading and staining are excluded from this warranty.

The structural integrity of the stainless steel fasteners used to assemble our furniture is covered under the normal terms of our warranty. However, stainless steel may rust under certain extreme conditions if not maintained as outlined under our care and maintenance section. Rusting hardware or structural failure due to rusting hardware is not covered by this warranty.

This warranty does not cover failure of furniture which in our opinion was cased by acts of God, accident, neglect, abuse or improper shipping and handling, and is void if our care and maintenance instructions were not properly followed.

This warranty applies only to the original purchaser of the product.
