Thoughtful Design **MADE RIGHT**

For more than 20 years, Oxford Garden® has created outdoor furniture with **thoughtful design made right**. This philosophy permeates everything we do. Our products enhance commercial and residential spaces, creating luxurious outdoor living experiences that stand the test of time.

Beginning with our design process, each piece of furniture is tailored to achieve a balance of form and function. Our materials are selected for their beauty and proven durability in outdoor conditions. Each piece is crafted with commercial-grade quality to deliver superior comfort and performance that can be enjoyed for years.

Our commitment to "making it right" continues through the service and support we provide during and after the purchase process. Our sales and support professionals provide responsive customer service that continues well after our furniture is installed. We are committed to fostering customer satisfaction and loyalty.

Installed in hotels, resorts, restaurants, country clubs, multi-family, and other commercial applications, Oxford Garden® is an established partner in providing comfort and style for the outdoor room.

QUICK SHIP

Just like every design project, every schedule is unique. No matter your timeline, Oxford Garden® can help create outdoor environments designed to fit your needs with our Quick Ship program. We have assembled a comprehensive selection of our most popular products in our most popular finishes and fabrics, so you can order and receive top quality furniture fast—without extended lead-times.

ADVANTAGES AT A GLANCE

- Includes a wide variety of our most popular collection items.
- Most orders ship 1-5 business days from receipt of a confirmed order.
- On-hand inventory is maintained with anticipated demand needs.

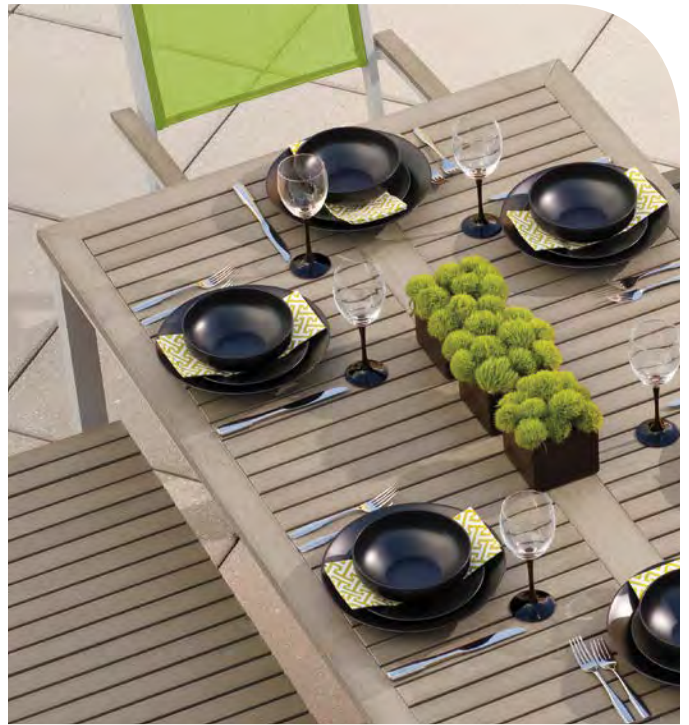

POLICY

Quick Ship items are based on available quantities. Revisions to purchase orders may change lead time. Lead times are estimated and do not include weekends or holidays.

COLLECTIONS

NETTE

Nette elegantly combines materials to produce an airy modern aesthetic that is as refined as it is striking. Gentle curvilinear frames and stylish dual-layer woven straps create a design that is both stylish and durable. Pair with Eiland dining tables.

EILAND

Eiland is as practical as it is beautiful. With a subtle, sophisticated look, this collection will compliment a variety of spaces. Ideally suited for commercial applications, it features low-maintenance, durable materials. This versatile collection is the perfect compliment to Nette, Koral, and Salino collections. Eiland also pairs well with our wood collections to create a modern, mixed material look.

DETAILS: ESSEX PAGE 90, ACCESSORIES PAGE 93

CLASSIC

Classic is inspired by the English garden—elegant, charming, and comfortable. Classic benches and chairs are ergonomically designed with deep seats for a relaxed fit. Rooted in traditional English design, Classic is a timeless choice for stand-alone accent seating or pairing with other collections such as Hampton tables.

ABOVE: Classic Armchair and 5' Bench with Cushions in Sunbrella® Performance Fabric. Oxford 5' Backless Bench, Classic Coffee and End Tables. TOP RIGHT: Classic Rocking Chair with Cushion in Sunbrella® Performance Fabric and End Table. BOTTOM RIGHT: Classic 6' Bench and 19" Planter.

DETAILS: CLASSIC PAGE 91, OXFORD PAGE 89, FABRIC PAGE 98, ACCESSORIES PAGE 93

WEXFORD

Wexford features elegant lines and stunning angles, capturing the beauty of dining outdoors. Chairs and benches can be combined to create unique seating arrangements around the chic Wexford dining table. Consider pairing with Eiland dining tables for a mixed-material look.

ABOVE: Wexford 42" Bar Tables and Chairs. TOP RIGHT: Wexford 48" Dining Tables with Tops in Lite-Core Ash and Mera Stacking Armchairs with Cushions in Sunbrella® Performance Fabric. RIGHT BOTTOM: Wexford 48" Dining Table with Wexford Benches and Side Chairs.

NAUTICAU—
INDOOR STYLE AND COMFORT
MEET OUTDOOR FUNCTION

Nauticau combines the luxurious look and feel of leather with the ability to resist the harshest weather conditions. Both flexible and tough, this marine grade PVC material has no special care requirements and is virtually waterproof. Used for years as upholstery in the maritime industry, Nauticau withstands extreme temperatures, resists fading, and provides healthcare grade mold and mildew resistance.

TRAVIRA

Bistro tables have electroplated galvanized steel posts and bases for commercial-grade stability and strength. Table top frames and skirts are powder-coated aluminum.

The durability and weight of powder-coated steel help stabilize the outdoor pedestal tables making them ideal for food service environments. Combined with any of our low-maintenance material table tops, these tables are ideal for commercial use.

seat height 15"
76 lbs. assembled

Untreated, wood weathers to a warm gray. Treat with a timber protector to maintain color.

ADIRONDACK CHAIRS feature a deep, comfortable seat, wide arms, and matching footstool for complete relaxation.

CHAISE features a convenient slide out peek-a-boo tray, 5-position adjustable back, and rubber treads on wood wheels for smooth movement that won't scratch surfaces.

BENCHES can be used as a beautiful accent in a garden or combined with Hampton tables. Each features an ergonomically curved seat and traditional mortise and tenon cross-doweled construction.

DINING TABLES have slatted tops to prevent ponding and wood-to-wood leg joinery for stability. Pair with seating from Classic, Mera, or Wexford Collections.

FABRICS

Fabrics For projects requiring immediate turnaround, Oxford Garden® offers a selection of products available for Quick Ship.

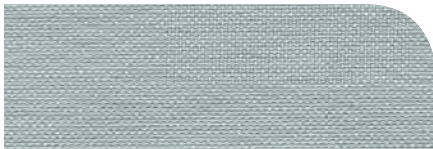

Materials Quick Ship fabric choices include 100% solution-dyed acrylic from Sunbrella®, solution-dyed polyester, solution-dyed Olefin, or Nauticau. See page 98 for information on Custom Fabric and Customer's Own Material orders.

Construction All upholstery and cushions are designed to be quick-drying. Ties or hook and loop straps secure cushions to furniture and, where necessary, notched corners provide a custom fit to Oxford Garden® furniture.

Custom Fabric and Customer's Own Material (COM) Orders

We gladly accept Custom and COM orders for cushions and umbrellas. These products may not be returned or canceled. For more information on lead time and pricing, call 877-866-3331 or email sales@oxfordgarden.com

Sunbrella® 100% Solution-Dyed Acrylic Outdoor Fabrics

Oxford Garden® offers Sunbrella® Performance Fabrics.

View selections at www.oxfordgarden.com/sunbrella

Ties or hook and loop straps secure cushions to furniture. Where necessary, notched corners provide a custom fit.

Bench and chair cushions are filled with a 2.5" thick thermal-bonded polyester core (chaise lounge cushions are 3.5" thick), resulting in quick-drying, mold and mildew resistant cushions.

Striped umbrellas must be ordered in even quantities.

For benches wider than 50", cushion stripes will run side to side instead of front to back.

Oxford Garden® cannot guarantee Directional OR Railroaded fabric will be centered due to bowing and may be subject to additional yardage requirements.

MATERIALS & MAINTENANCE

MATERIALS

Materials are selected for their beauty and proven durability in outdoor conditions. See details below. For more information regarding materials and product care, please visit our website.

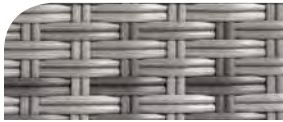

DUAL-LAYER STRUCTURAL STRAPS

DUAL-LAYER STRUCTURAL STRAPS are engineered for durability and to resist weathering. Composed of a soft outer polyolefin weave and supported by an internal polyethylene woven and bonded strap, this material provides both strength and comfort.

TEKWOOD

TEKWOOD is a wood-alternative developed from polystyrene, available in a natural or vintage finish. Designed for the outdoors, Tekwood provides the look of wood with minimal weathering or maintenance.

RESIN WICKER

RESIN WICKER is made of a synthetic polyethylene material. Durable and elastic, resin wicker provides a comfortable seat that will resist weathering and endure years of use.

TEAK

TEAK is known to be superior to other woods for outdoor furniture applications. The beautiful dense grain and high oil content of Teak allow it to resist rot, moisture, warping, and splintering. Wood weathers naturally to a beautiful silvery gray color unless treated. See page 103 for products to slow the graying process and enhance the natural wood color.

COMPOSITE SLING

COMPOSITE SLING uses PVC-coated polyester threads woven into mesh and cord. Both materials are ideally suited to the outdoor environment and provide commercial-grade quality outdoor seating.

SHOREA

SHOREA is a tropical hardwood that grows naturally and plentifully in Southeast Asia. Similar to Teak in many ways, Shorea is highly suited for outdoor furniture. Heavy and dense, Shorea is resistant to rot and will last for years in all weather conditions. Wood weathers naturally to a beautiful silvery gray color unless treated. See page 103 for products to slow the graying process and enhance the natural wood color.

NAUTICAU

NAUTICAU is a PVC-coated marine grade fabric constructed to withstand extreme temperatures, resist fading, and provide healthcare-grade mold and mildew resistance. Both flexible and tough, Nauticau does not require special care or conditioning and is virtually waterproof.

POWDER COATED ALUMINUM & STEEL

POWDER-COATED ALUMINUM AND ELECTROPLATED STEEL serve as complementary elements to other materials, creating a contemporary design. Durable and lightweight, the rust-proof nature of the powder-coated aluminum frame offers high quality and strength. Electroplated steel is used to offer additional strength to bistro and bar elements.

SUNBRELLA FABRICS

CUSTOM SUNBRELLA® FABRICS are 100% solution-dyed acrylic, which means the fibers are dyed in a color solution before they are woven—not printed on after the fabric base cloth is made. These fabrics are water resistant, so the colors stay true for a long period of time.

LITE-CORE

LITE-CORE is an engineered panel that combines the durability of natural granite stone and the light weight of aluminum. One of the hardest stones available, granite is a highly scratch-resistant solid surface that is backed with an aluminum honeycomb panel resulting in a beautiful surface that is both durable and lightweight.

SOLUTION-DYED POLYESTER FABRICS

SOLUTION-DYED POLYESTER FABRICS are an economical option for outdoor cushions and umbrellas. These fabrics have the look and feel of cotton with the strength, weather, and sun resistance of polyester.

HIGH-PRESSURE LAMINATE (HPL)

HIGH-PRESSURE LAMINATE (HPL) is renowned for its durability, longevity, and simple care requirements. Resin-impregnated paper is compressed under very high pressure into a strong, scratch-resistant, table top surface. HPL is designed to be resistant from burns, UV rays, stains, and heat.

SOLUTION-DYED OLEFIN FABRICS

SOLUTION-DYED OLEFIN FABRICS are mildew and chlorine resistant, quick drying, and water repellent. Dye is added to a liquid polymer solution before being spun into fibers to create fabric. This process makes the fabric color true, all the way through to its' core.

PORCELAIN CERAMIC

PORCELAIN CERAMIC is durable; hard, heat resistant, waterproof, and largely resistant to scratches. An extremely robust material, ceramic is ideal for use outdoors all year round. Finish shades and patterns may differ slightly from table to table.

Actual colors may vary from printed samples.

CARE

Protection To slow the graying process or enhance the natural color of our wood products, we recommend Cabot Australian Timber Oil, Teak Shield, or any other quality timber protector seasonally.

Australian Timber Oil

Penetrates deep into dense hardwoods, using triple oil to protect against UV rays, water damage, fungus, and mildew.

ATONAQ/ATONAG
Cabot Australian Timber Oil

A golden deep tone that simulates new teak.

*quart - covers 4-5 pieces of furniture
gallon - covers 16-20 pieces of furniture*

ATOJBQ/ATOJBG
Cabot Australian Timber Oil
Jarrah Brown -
Highlights natural wood grain.

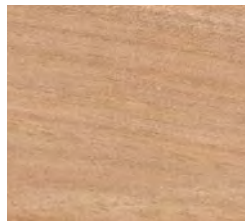

*quart - covers 4-5 pieces of furniture
gallon - covers 16-20 pieces of furniture*

TKSQ - Teak Shield

Protect wood from water damage, stains, mold, and mildew with this almost invisible wood protectant.

*Liter (1.06 quart) - covers about
5 pieces of furniture*

Teak Shield is colorless, and maintains natural color of wood.
(Shorea Natural shown)

Without Teak Shield or Timber Oil, shorea and teak will weather to a silver gray.
(Untreated, aged Shorea Natural shown)

CLEANING

TEKWOOD

Clean using a mild, non-abrasive cleanser and rinse well. To help prevent staining, use a furniture polish or protectant that is labeled safe for plastic materials regularly. We recommend 303® Indoor and Outdoor Furniture Protectant™.

SHOREA & TEAK

For seasonal cleaning, rinse the furniture and use a sponge or soft bristle brush to scrub with a mild cleaning solution. Rinse with fresh water.

COMPOSITE SLING & CORD

Using a stiff brush, scrub with a mild, non-foaming, commercial cleanser. Rinse well and air dry.

POWDER-COATED ALUMINUM, STEEL, & RESIN WICKER

Wash gently with a mild, non-abrasive cleanser. Rinse well and let dry.

LITE-CORE

Clean regularly using a soft rag and mild soap or pH balanced cleaner. Rinse thoroughly and dry with a clean rag. Avoid bleach and cleaners that are acidic, alkaline, or abrasive. To protect against stains, clean spills immediately and re-seal with a penetrating stone sealer twice a year. Scrape away gum or sticky material with a plastic putty knife.

NAUTICAU

Clean regularly using a soft rag and mild soap or use a marine grade synthetic leather cleaner/conditioner. Rinse thoroughly, and dry with a clean rag. Avoid bleach and cleaners that are acidic, alkaline, or abrasive. To prevent stains, clean spills immediately. Nauticau should be kept free of dirt and grime and covered when not in use.

HIGH-PRESSURE LAMINATE (HPL)

Clean with a moist microfiber cloth. Remove most stains with water and ordinary all-purpose cleaner or dishwashing detergent. For stubborn stains, use a dab of concentrated detergent. Avoid abrasive or highly aggressive cleaning products like steel wool, scouring powder or other polishes as they can scratch the surface and cause damage.

PORCELAIN CERAMIC

Clean using a damp microfiber cloth. Most stains can be removed with water and ordinary, gentle dishwashing detergent. For more stubborn stains, use a dab of concentrated detergent. Always wipe the table down afterwards with a clean cloth.

FABRIC & DUAL-LAYER STRUCTURAL STRAPS

Brush off dirt before it becomes embedded and clean liquid spills as soon as they occur by blotting (don't rub) with a clean, dry cloth. For oil-based spills, apply an absorbent such as corn starch, then remove with a straight edge. Wash gently with a mild, non-abrasive cleanser. Rinse well and air dry.

WARRANTY

We offer one, three, and five-year warranties – provided the furniture is assembled correctly and subjected to normal use. For more detailed warranty information, visit oxfordgarden.com/warranty.
