The Truss Series #1

Built to Endure...

The King Series #2

24'X26' garage, 10' (2X6) walls, tan Duratemp siding with white trim, and an 8 pitch roof with 12" overhangs and hickory shingles. It has two white 9'X7'6" Homestead overhead doors with Stockton 2-lite glass, one 3' prehung fiberglass door with 9-lite glass, and six 24"X36" windows with white picture frames and red z-style shutters. This garage has gutters and downspouts.

On The Cover: *The Truss #1*

28'X36' garage, 10' (2X6) walls, red Duratemp siding with white trim, and a 9 pitch roof with 12" overhangs and hickory shingles. It has three white 9'X8' Homestead overhead doors with Stockton 2-lite glass, one 3' prehung door with 9-lite glass, and six 30"X36" windows with white picture frames and white z-style shutters. This garage has gutters and downspouts and a 36" cupola with a metal roof.

With a wide variety of options and styles from which to choose, our garages are custom built for you, the customer. Whether you want to protect your boat, car, motorcycle, or tractor, or you simply need the extra storage space, we are confident that we can help. If you cannot find the structure that perfectly suits your needs, call today and ask how you can help us design your garage!

The Empire Series #3

26'X48' garage, 9'6" (2X6) walls, red Duratemp siding with white trim, and a 10 pitch roof (including two 10' gable dormers and one 40' shed dormer) with 12" overhangs and charcoal shingles. It has three white 9'X8' Homestead overhead doors with Wyndbridge 2-lite glass, one 3' prehung fiberglass door with 9-lite glass and one 6' prehung fiberglass door with 15-lite glass in door and a transom above. It has fourteen 34"X49" windows with white picture frames. Gable dormers have picture windows with side flankers and transoms for a total dimension of 72"X60". This garage has a 48" cupola with glass and a curved copper roof.

The gable ends have greek returns as shown below.

You can maximize your floor plan by adding a second story. This structure has two gable dormers and a shed dormer giving ample room upstairs for extra storage, living space, rec room, or work area.

30'X50' garage, 10' (2X6) walls, custom dark green Duratemp siding with white trim, and a 5 pitch roof with 12" overhangs and metal roofing. It has two white 10'X8' Homestead overhead doors with Stockton 4-lite glass, one 3' prehung steel door with 4-lite glass, and three 30"X36" windows with white picture frames.

The Truss Series #4

24'X26' garage, 8' (2X4) walls, custom vinyl siding with white trim, and a 6 pitch roof with 12" overhangs and charcoal shingles. It has two white 9'X7' raised panel overhead doors, one 3' prehung steel door, and three 24"X36" windows and white picture frames. This garage has two 18x24 gable vents and a 30" cupola with a curved copper roof and a weather vane.

The Truss Series #5

28'X36' garage, 10' (2X6) walls, white vinyl siding with white trim, and an 8 pitch roof with three 4' gable dormers and charcoal shingles. There is a 4' overhang on the front of the garage and 12" overhangs on the sides and the back. It has one 9'X8' and two 10'X8' white raised panel overhead doors with Sunburst glass, one 3' prehung door, and five 30"X41" windows. This garage has gutters and downspouts.

The Truss Series #6

The Truss Series #7

24'X30' garage, 8' (2X4) walls (plus 8" block wall), red Duratemp siding with white trim, and an 8 pitch roof with 12" overhangs and barkwood shingles. It has two white 9'X7'6" Homestead overhead doors with Wyndbridge 2-lite glass (curved opening), one 3' wood door with 3.5" curved trim and decorative hinges. It has two 24"X36" windows and two 18"X27" windows with white picture frames and white z-style shutters. This garage has a 30" cupola and two white flower boxes.

24'X26' garage, 10' (2X6) walls, slate blue vinyl siding with white trim, and an 8 pitch roof with 12" overhangs and charcoal shingles. It has two white 9'X7'6" raised panel overhead doors with 4-lite glass, one 3' prehung fiberglass door, and six 24"X36" windows with black shutters.
The King Series #8

24'X24' garage, 8' (2X4) walls, tan Duratemp siding with clay trim, and a 6 pitch roof with 12" overhangs and weatherwood shingles. It has two sandtone 9'X7' raised panel overhead doors, one 3' prehung door with 9-lite glass, and four 24"X36" windows with clay louvered shutters.

The Truss Series #9

17'X40' garage, 8' (2X4) walls, sandstone vinyl siding with white trim, and a 5 pitch roof with 12" overhangs and pewter gray shingles. It has one white 9'X7' almond Homestead overhead door with Stockton 2-lite glass, one 3' prehung door, and two 24"X36" windows with red louvered shutters. This garage has gutters and downspouts.

The Truss Series #10

The Truss Series #11

20'X20' garage, 8' (2X4) walls, white vinyl siding with white trim, and a 6 pitch roof with 12" overhangs and national blue shingles. It has one white 16'X7' raised panel overhead door, one 3' prehung door, and four 24"X36" windows with blue louvered shutters.

16'X24' two-story barn garage, 93" (2X4) walls, clay Duratemp siding with white trim, and a gambrel roof with 12" overhangs and a 6' porch overhang with weatherwood shingles. It has one white 9'X7' raised panel overhead door, one 3' wood door with transom glass, and four 24"X36" windows with white z-style shutters.

The two-story barn is a very effective use of space. The shape of the roof allows for a wide second-floor footprint. As you can see from the interior picture above, there is plenty of room to walk around upstairs. If you need a second floor with almost the same amount of space as the first floor, the two-story barn is the way to go.

The Gambrel Series #12

14'X26' two-story barn garage, 93" (2X4) walls, white vinyl siding with white trim, and a gambrel roof with 10" overhangs and charcoal shingles. It has one white 9'X7' Homestead overhead door with Wyndbridge 2-lite glass, one 3' prehung fiberglass door with 11-lite glass, and three 24"X36" windows with black raised panel shutters. This garage has a 26" cupola with glass and a curved copper roof.

The Gambrel Series #13

22'X28' two-story barn garage, 93" (2X4) walls, sandstone vinyl siding with clay trim, and a gambrel roof with 12" overhangs and shakewood shingles. It has one sandtone 9'X7' Homestead overhead door with a curved opening, one 3' prehung fiberglass door with 11-lite glass, and four 24"X36" windows with clay picture frames and blue z-style shutters. This garage has a 26" cupola with glass and a curved copper roof.

The Gambrel Series #14

24'X26' modular garage, 7' (2X4) walls, tan Duratemp siding with light brown trim, and a 3 pitch roof with one 6" gable overhang and hickory shingles. It has two brown 9'X7' raised panel overhead doors with Stockton 4-lite glass, one 3' wood door, and four 24"X27" windows with light brown shutters.

The Modular #15

12'X26' garage, 78" (2X4) walls, heritage gray vinyl siding with white trim, and a gambrel roof with charcoal shingles and 6" eaves and 10" gable overhangs.

It has one 9'X7' Homestead overhead door (curved opening) with Wyndbridge 2-lite glass, one 3' wood door with 3.5" curved trim and decorative hinges.

It has two 24"X36" windows with white picture frames and black raised panel shutters.

This garage has two 12x18 gable vents and a 26" cupola with curved copper roof and a weather vane.

The Designer High Wall Barn Garage #16

The Designer Workshop Garage #17

12'X28' garage, 7' (2X4) walls, sandstone vinyl siding with clay trim, and a 6 pitch roof with 10" overhangs and weatherwood shingles. It has one sandstone 9'X7' Homestead overhead door (curved opening) with Wyndbridge 2-lite glass, one red 6' t-hinge fiberglass double door with 4-lite glass, and two 24"X36" windows with clay picture frames and red z-style shutters. This garage has two 12X18 gable vents and a 26" cupola with curved copper roof and a weather vane.

12'X24' high wall barn garage, 75" (2X4) walls, beige Duratemp siding with hunter green trim, and a gambrel roof (including one peak overhang) with weatherwood shingles. It has one 9'X7' raised panel overhead door, one 3' wood door, and two 24"X27" windows with hunter green shutters.

The High Wall Barn Garage #18

The Workshop Garage #19

12'X24' workshop garage, 7' (2X4) walls, clay Duratemp siding with white trim, and a 5 pitch roof (including one gable overhang) with weatherwood shingles. It has one 9'X7' raised panel overhead door, one 3' wood door, and two 24"X27" windows with black shutters.

The Truss Series #20

25'X32' garage, 10' (2X6) walls, custom vinyl siding with custom trim, and a 9 pitch roof (with an 18' reversed gable) with 12" overhangs and weatherwood shingles. It has an 8'X8' and a 16'X8' custom overhead door, one 3' prehung door, and four 34"X49" windows. This garage has gutters and downspouts and a 36" cupola with a curved copper roof.
