About Us

For loads of fun and family time, count on Swing Kingdom. A family operated manufacturer of premier vinyl swing sets, we strive to design and build fine quality, affordable swing sets perfect for children of all ages.

Today, we continue to use only the finest quality materials to ensure safe, durable swing sets built to offer years of enjoyment.

Our play sets are loaded with activities that will spark every child's imagination and encourage daily physical activity and never-ending fun!

OUR MISSION:

Rubber Mulch

1 ton of Rubber Mulch covers 250 square feet at 3" depth.

Swing Kingdom rubber mulch can provide extra shock absorption for when kids fall or stumble while at play. With proper installation and adequate depth (around six inches), a rubber mulch surface will give up to 16 feet of critical fall height protection compared to gravel or wood mulch. It can cushion many mishaps and help your child avoid fractures, brain trauma, and other playground-related injuries.

Swing Kingdom rubber mulch has been proven time and again to be the best rubber playground mulch and protection surface. Its main benefits include:

- Unmatched shock absorbency.
- Significant reduction of playground injuries — creates safer playgrounds.
- Non-toxic.
- Minimal maintenance.
- Will not attract insects or rodents.
- Stands up to extreme weather conditions.
- Exceptional longevity.
- Won't dirty up kids' clothing, skin, and hair.
- Cost-effective long-term option to regular playground infills.
- Recommended by the consumer product safety commission to use as playground surface.
- Up to 60% savings versus engineered wood fiber or wood mulch in playground application.
- Requires up to 50% less material than wood mulch.
- Does not float, absorb water or blow away.
- All our products are proudly made in the USA, and are GSA, ASTM, and IPEMA certified.

- Maintain a uniform impact resistance even in high traffic areas - do not get displaced like loose fill surfacing options
- Maintain effectiveness even in high humidity and cold temperature
- Do not support microbial growth — can even include an antimicrobial infill for an added level of protection against bacteria, mold and mildew

Playground Turf

- Drains quickly after rainfall for quicker return to play
- Natural look and feel provides visual appeal
- Low maintenance — no watering or mowing!
- Cooler surface temperature compared to other surfaces
- Does not hide dangerous foreign objects
- Does not get in the eyes, mouths or hair of children
- Does not scatter onto walkways and cause tripping or slipping hazards

Turf Cushion

- Meets ASTM F1292 requirements for up to a 12' fall height
- Reduces allergic reactions caused by grass
- Dries quickly, allowing children to play immediately following rain
- Consistent HIC safety ratings
- Eliminates constant maintenance of loose fill surfacing
